

FENTANYL FACTS

Public Health
Prevent. Promote. Protect.

Brown County
Health & Human Services

- Not all pills are real. You should only take pills you get from a licensed pharmacist
- You can't see it, taste it, or smell it
- As little as two grains of salt is enough to kill someone
- Fentanyl is being pressed into pills and mixed into other drugs

Parents: Monitor your child's social media use, and help break the stigma by talking about it.
